

Sponsorship Policy

NDDAC is committed to supporting our club members in their agility endeavours through offering excellent quality training on top spec equipment at affordable pricing. NDDAC also supports member's agility endeavours outside of the club training classes and has created this policy to record the views as to if and how financial support should be offered outside of the club training classes.

Any decisions as to sponsorship, both whether to offer sponsorship and the terms of such sponsorship, is at the absolute discretion of the committee. There is no appeal process against any decision made by the committee in this regard.

The committee have historically offered sponsorships for team events where a North Derbyshire team has been put forwards to compete in national competitions and has offered financial sponsorship to members competing internationally for the GB or UK teams where appropriate.

In making decisions as to financial sponsorship, the committee may have regard to:

1. The member's contributions to the club.
2. The member's length of membership with the club
3. The member's regular attendance at club training classes and internal events.
4. The member's standing within the club and the wider agility community.
5. The event for which the member seeks sponsorship and how attendance at such an event could raise the profile of the club.
6. Any other factor the committee considers relevant.

Any decisions as to sponsorship must be made by a quorate committee, meeting in person, and the member concerned shall not be a party to any discussions or invited to vote upon the matter.
